

SACHIN KUMAR MAHTO

DATA ANALYST | SQL | PYTHON | POWER BI | ADVANCED EXCEL | AUTOMATION

Gurugram, Haryana, India | +91 8595814490 | sachinsingh1811@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst-focused automation professional with hands-on experience transforming high-volume telecom operational data into validated reports, RCA-oriented outputs, KPI monitoring and decision-ready summaries. Works with Python, Pandas, SQL, Power BI, Advanced Excel, Power Query and automation workflows supporting approximately 1,032 automated report executions per day across 20 operational circles. A representative report preparation workflow was reduced from roughly 10 minutes manually to about 7 seconds.

PROFESSIONAL EXPERIENCE

Altius Infrastructure Private Limited | NOC Engineer

Dec 2025 - Present | Gurugram, Haryana | On-site | Full-time

- Work with high-volume telecom operational data covering outage monitoring, alarm analysis, escalation reporting, data cleaning, master-data mapping, ageing analysis and RCA-oriented processing.
- Build and maintain Python / Excel automation for recurring reporting workflows; the current automation footprint includes 46 registered workflows and 40 outage-reporting workflows across 20 operational circles.
- Support automated reporting for power failure, HRT, RU/DU low-voltage and low-battery monitoring using Pandas, Excel, OpenPyXL and Outlook-based workflows.
- Apply business rules, validation and structured transformations to convert raw operational inputs into standardized summaries and reporting outputs.

SELECTED ANALYTICS & AUTOMATION PROJECTS

Customer & Revenue Intelligence - SQL, Python, Pandas | Synthetic e-commerce analytics covering net revenue, returns, repeat-customer behavior, acquisition-channel value and RFM segmentation.

Growth Funnel & A/B Testing - SQL, Python, Pandas | Synthetic product analytics covering funnel drop-off, acquisition channels and control-vs-treatment conversion analysis.

SLA & Anomaly Intelligence - SQL, Python, Pandas | Synthetic operations-ticket analytics covering SLA breaches, resolution time, reopen rate, team x priority performance and IQR-based anomalies.

Outage Reporting & RCA Engine - Python, Pandas, OpenPyXL | Sanitized professional demo covering outage filtering, ageing analysis, alarm-context classification, master-data enrichment and standardized reporting.

TECHNICAL SKILLS

Analytics & SQL: SQL (Joins, CTEs, Window Functions, Subqueries, CASE, Date Functions), Statistics, A/B Testing, EDA, Data Cleaning

Python & Data: Python, Pandas, NumPy, ETL, OpenPyXL, Data Validation, Workflow Automation

BI & Reporting: Advanced Excel, Power Query, Power BI, DAX (Intermediate), Tableau, Data Visualization

Tools: Git, GitHub, Outlook Automation, Windows Automation, HTML, CSS, JavaScript

EDUCATION

Galgotias University | B.Tech - Computer Science (Artificial Intelligence & Machine Learning) | 2021-2025 | CGPA: 8.2/10
